PROJECTS

WORKOUT ROUTINE GUIDANCE

TECH STACK USED : REACT.JS,TAILWINDCSS,REDUX TOOLKIT,NODE.JS,EXPRESS.JS

JWT For Authentication

- Has a login and signup functionality, user can come on the page and make an account
- Has an external API to fetch all the exercises (all different parts)
- User can add any exercise to their routine (daywise)

MAP APP

TECH STACK USED : REACT.JS,TAILWINDCSS,REACT-LEAFLET,LEAFLET-ROUTING-MACHINE,OPEN STREET MAP API

- Uses React-leaflet to draw a map in the web app and put markers on it.
 - Uses open street map data (use of nominatim) to auto suggest the places.
 - Takes in the beginning and Final destination and gives the shortest Route between those two
-
